

EUROPEAN ATLAS OF FLORA AND FAUNA

Choose a Natural Park in your country and do some research about its ecosystem.
Create a poster that includes the following information:

- Location and orography
- Climate (include a climograph)
- Flora (most characteristic species in English and scientific name and biological adaptations).
- Fauna (most characteristic species in English and scientific name and biological adaptations).

Once you finish the poster, you have to add it to this [Padlet](#).

Some sources of information:

1.Database of European Vegetation, habitats and flora:

<https://floraveg.eu/>

2.An application to create meteorological charts for places worldwide
